How a year looks • Margaret, 67

She picks a \$0-premium HMO with dental and a gym membership. She sees in-network doctors, pays small copays as she goes, and her costs stop at the plan's out-of-pocket max. Her drug coverage is built right in.

THE BOTTOM LINE

One plan brings your hospital, medical, and usually drug coverage together with extras like dental and vision, in exchange for using a network, and a yearly out-of-pocket maximum caps what your client can spend.
